EDUCATION

Trinity College Dublin - The University of Dublin

Dublin, Ireland

M.Eng, MAI (Hons) Master of Mechanical and Manufacturing Engineering

Sept 2022 – May 2027

- **Grade:** 1.1; First-Class Honours (75%)
- **Relevant Coursework Topics:** Engineering Mathematics, Probability and Statistics, Computational Science, Thermodynamics, Heat Transfer, Fluid Mechanics, Solid Mechanics, Material Science, Multibody Dynamics, Signals and Systems, Computer Engineering, Electronics, Manufacturing Technology, Research Methods
- **Activities and Societies:** Trinity SMF, TCD Commodities Soc, Formula Trinity, DUFC Trinity Rugby, EngSoc

PERSONAL PORTFOLIO

Some of the projects I have worked can be viewed through my portfolio: finn0connor.github.io/

Details of the work carried out during my time at ElectroRoute can be seen under 'Energy Trading Internship: ElectroRoute'.

EXPERIENCE

ElectroRoute

Jan 2026 – Present

Energy Trading Intern (Industrial Placement)

Dublin, Ireland

- Supported power and gas trading operations through market analysis, KPI reporting, and algorithm development.
- Developed a KPI dashboard along with new KPIs using Python, HTML, and Flask to monitor desk performance.
- Built a machine learning demand forecast using ridge regression which outperformed existing forecasts.
- Formulated paper trading strategies for ISEM and GB power markets, tracking and comparing results with the shift desk.
- Completed training courses in energy markets, data science, machine learning, forecasting, risk, and compliance.

Trinity Commodities Society

Mar 2026 – Present

Head of Professional Development and Outreach

Dublin, Ireland

- Founding member of Ireland's first commodities-focused student society, building a platform for students interested in energy, metals, and agricultural commodity markets: <https://tcdcommodities.com>.
- Leading initiatives including market research reports, industry speaker events, and trading workshops.
- Developing partnerships with industry professionals and firms to facilitate networking, mentorship, and career insights.

HappyStack

Oct 2025 – Present

Commerical Intern

Dublin, Ireland

- Part-time internship with a software and data analytics e-commerce startup focused on helping brands grow.

Kirby Group Engineering

May 2025 – Aug 2025

Mechanical Engineering Intern

Dublin, Ireland

- Contributed to the development of AstraZeneca Alexion's new pharmaceutical manufacturing facility.
- Applied knowledge in fluid mechanics, thermodynamics, and CAD.

Formula Trinity

Oct 2024 – Sep 2025

Drivetrain Engineer

Dublin, Ireland

- Designed and simulated drivetrain components using SolidWorks and Ansys for Trinity's Formula Student team.

Trinity Student Managed Fund

Feb 2023 – Apr 2025

Quantitative Trading Analyst, Macroeconomic Analyst, Basic Materials Analyst

Dublin, Ireland

- Helped design systematic trading strategies in Python & MATLAB, backtested with market APIs.

Susquehanna International Group (SIG), LLP.

Feb 2024

Spring Insight Participant

Dublin, Ireland

- Gained exposure to proprietary trading, options market making, and SIG's probabilistic decision-making methods.

ACHIEVEMENTS, SKILLS & OTHER

Achievements & Leadership: Castleknock College Deputy School Captain (2022), Valedictory Speech (2022), Bologna Marathon Finisher (2025), Trinity Rugby DUFC First XV, RIAM Grade 6 Pianist.

Skills: Programming, Data Analysis, ML, CAD, CFD, FEA, Advanced Mathematics, Teamwork, Communication, Spanish.

Platforms: Python, Pandas, scikit-learn, SQL, MATLAB, C++, Excel, SolidWorks, ANSYS, Arduino.

Certificates: Data Scientist in Python, Python & Machine Learning for Financial Analysis, Energy Traders Europe: Energy Market Fundamentals, Bloomberg Market Concepts.

Part-time Work: Mathematics tutor, bartender in USA and France, stadium steward, construction labourer.

Interests: Running, rugby, golf, piano, saxophone, acrylic painting, Formula 1, geopolitics, energy economics.
