EDUCATION

- Trinity College Dublin - The University of Dublin** Dublin, Ireland
- M.Eng, MAI (Hons) Mechanical and Manufacturing Engineering Sept 2022 – May 2027
 - Bachelors Grade:** First-Class Honours (1.1, 75%)
 - Relevant Modules:** Deep Learning, Energy Policy & Demand, Wind Energy, Low Carbon Power Technology, Low Carbon Transport Technology, Engineering Mathematics, Probability & Statistics, Computational Science, Thermodynamics, Heat Transfer, Fluid Mechanics, Multibody Dynamics, Signals & Systems, Computer Engineering
 - Activities:** Trinity Commodities Society (Founder), Trinity Student Managed Fund, Formula Trinity, DUFC Rugby

EXPERIENCE

- ElectroRoute** Dublin, Ireland
- Energy Trading Analyst / Energy Trader (Part-Time) Jul 2026 – Present
 - Selected to continue with ElectroRoute as an Energy Trader/Analyst alongside my Master's degree.
 - Supporting the optimisation and trading of 4GW+ renewable, battery, and thermal assets across ISEM and GB markets.
 - Conducting quantitative analysis and executing day-ahead and intraday trading strategies while managing portfolio risks.
- ElectroRoute** Dublin, Ireland
- Energy Trading Intern (Industrial Placement) Jan 2026 – Jul 2026
 - Supported power and gas trading through quantitative analysis, market research, and developing data-driven trading tools.
 - Built a server-hosted KPI dashboard using Python, SQL, Flask, and HTML to monitor desk and market performance.
 - Developed forecasting models for demand, generation, and interconnector flows, and backtested renewable trading strategies.
 - Completed training in data science, energy markets, power systems, trading strategy, and risk management.
- Trinity Commodities Society (tcdcommodities.com)** Dublin, Ireland
- Founding Member & Head of Professional Development Mar 2026 – Present
 - Founding member of Ireland's first commodities society covering energy, metals, and agricultural commodity markets.
 - Lead initiatives including market research reports, commodity trading workshops, and industry speaker events.
 - Developing partnerships with commodity professionals and firms for industry engagement and speaker opportunities.
- Trinity Student Managed Fund** Dublin, Ireland
- Quantitative Analyst / Macroeconomic Analyst Feb 2023 – Apr 2025
 - Performed macroeconomic and equity research using Python, contributing investment recommendations for a student-managed fund of €720,000+ assets under management.
- Kirby Group Engineering** Dublin, Ireland
- Mechanical Engineering Intern May 2025 – Aug 2025
 - Supported the mechanical process design and construction of a large-scale pharmaceutical manufacturing facility, applying concepts in fluid mechanics, thermodynamics, and CAD.
- Susquehanna International Group (SIG)** Dublin, Ireland
- Spring Insight Participant Feb 2024
 - Selected for SIG's competitive insight programme covering proprietary trading, options market making, and engineering.

SELECTED PROJECTS

Portfolio of technical projects available at: finn0connor.github.io/projects.html

- ISEM Energy Trading KPI Dashboard:** Developed a server-hosted analytics dashboard using Python, SQL, Flask, and HTML to monitor trading desk performance, including PnL, generation, curtailment, forecast accuracy, and market KPIs.
- IE-GB Interconnector Flow Forecasting:** Built an XGBoost machine learning model to forecast 30-minute interconnector flows using power market prices, renewable forecasts, demand data, and historical flow patterns, achieving an R^2 of 0.4822.
- Solar Portfolio Trading Analysis:** Analysed renewable generation forecasts, dispatch-down events, and auction performance to evaluate trading strategies and develop a framework for optimising solar volume allocation across electricity markets.

TECHNICAL SKILLS & KNOWLEDGE

- Programming:** Python, SQL, MATLAB, C++, Pandas, NumPy, scikit-learn, Plotly, Excel
- Quantitative:** Machine Learning, Forecasting, Statistical Modelling, Regression Analysis, Backtesting, Data Analysis
- Energy Markets:** ISEM & GB Power Markets, SEMOpX, EPEX Spot, Physical Power Trading, Renewable Asset Optimisation
- Engineering:** Mathematical Modelling, Thermodynamics, Fluid Mechanics, Power Systems, Energy Engineering
- Certifications:** Energy Traders Europe: Energy Market Fundamentals, Dataquest: Data Scientist in Python, Udemy: Python & Machine Learning for Financial Analysis, Bloomberg Market Concepts
- Languages:** English (Fluent), Spanish (Conversational)

ACHIEVEMENTS & INTERESTS

- Achievements:** Castleknock College Deputy School Captain & Valedictorian, DUFC Rugby First XV, Bologna Marathon 2025
- Interests:** Energy markets, geopolitics, commodities, rugby, running, golf, piano, Formula 1
